

# ***METRIMIST***

## Technical Bulletin

MetriMist is a natural aromatic deodorizer. MetriMist eliminates offensive odors by cleaning the air, not masking the smell. MetriMist is safe to use on surfaces and is considered an environmentally more effective alternative to aerosol air fresheners.

MetriMist may be sprayed directly in the air, on a surface, or added to laundry water to eliminate odors. It is also effective on irritating odors such as hydrogen sulfide, ammonia, and any other chemical compounds

### Efficacy Study

“Environmental Impact Evaluation of MetriMist”

Environmental Sciences and Engineering Group. March 21, 1994. Project No. 2-51-703

Conclusion: The formulation is readily biodegradable and has passed the OECD Ready Biodegradability Screening Test 301E. Acute toxicity testing of the formulation to juvenile rainbow trout was conducted and it was determined the formulation has a 96-hour LC<sub>50</sub> of 16.4 ppm.
